CENTRAL PERU

16 days

This tour targets a large number of endemic species that occur in the Andes of Central Peru, with highlights like Golden-backed Mountain-Tanager, the ultra-rare Junin Grebe and White-bellied Cinclodes, inca-finches, and White-cheeked Cotinga. Widespread species, and birds like Diademed Sandpiper-Plover could beat out the endemics on the list of favorites. Add to that some of the best scenery anywhere, and you have a truly unforgettable tour. This is quite an intense trip, and long drives and several very early starts are necessary.

DAY	PLACE	BIRDING PLACE	NIGHT
Day 0	Arrive to Lima		San Antonio Abad Hotel
